

Global Beauty Masters 2016/Season 3

US Competition FAQs

Can I compete as an individual?

Global Beauty Masters is a team competition only. It's up to competitors to form their own teams before applying. If you don't have a team, you may want to post on [our Facebook page](#) and encourage other eligible professionals to join your team.

Do my teammates and I have to attend school (students) or work together (professionals) on a regular basis to participate?

No, as long as all the competitors meet the eligibility requirements it's not necessary that you even know each other. However, it would be wise to form a team with others you trust and respect.

How do we join the competition?

Refer to the rules for more information about completing the online application.

If we've participated in Global Beauty Masters in the past, can we compete again?

Yes, former competitors can apply, but no special consideration will be given.

What should we wear if our team is confirmed to compete in a live qualifier?

We recommend that your team present a coordinated look with professional attire. Competitors must wear solid color tops; no logos or other branding will be allowed.

How important is the theme?

Your presentation may look fabulous, but if it doesn't represent the theme, your Styling scores will suffer. If you don't understand the theme, please do your research.

How much time do we have to prep our model for a live qualifier?

Your team will have only 2 hours in the preparation room before the runway show. Thus, we advise teams to complete most of the work before reporting to the competition.

Will we have to talk during the runway show?

While presenting your model, your team may be asked questions by the judges. This is your opportunity to express yourselves and influence the Team Dynamic scores.

What if my team can't travel to a live qualifier?

If you're unable to participate in a live qualifier, your team can apply to compete in the online qualifier which requires a video submission; please refer to the rules for details.
